

**Sickle cell disease: regular follow-up – adult patients**

***On behalf of the RBC committee – BHS:***

André Efira, Marie-Agnès Azerad and Timothy Devos (*CHU Brugmann and KULeuven*)

<b>Minimum once</b>	<b>Annual evaluation Including nurse call if no show</b>	<b>Three months follow up visit Including nurse call if no show</b>
Extended red blood cells phenotype and if possible red blood cells genotyping	Regular clinical evaluation Education and training Social and psychological support	<b>Vital parameters</b> T°, Blood Pressure Pulse, O <sub>2</sub> saturation  <b>Standard medical history</b> with enquiry about last painful crisis  <b>Standard clinical examination</b>
	<b>Biology</b> CBC, reticulocyte count, CRP, BUN, creatinine, LDH, AST, ALT, Bilirubin, Alc Phosphatase, Glycaemia, vit B12, Folic acid Urine analysis (24H): protein, creatinine clearance Ferritin PTH, vit D, Calcium/creat., NTx/creat. Viral serologies: HBS, HBC, HIV (1x/year or more frequently if transfusions)	<b>Biology</b>  Minimum CBC (fingertip ok),  % HbS level (if treatment via RBC transfusions, simple or exchange)  % HbF (if treatment with hydroxyurea)  Ferritin (if regular RBC transfusions)  Renal function (if treatment with iron chelator-Exjade)
	ECG Echocardiogram with evaluation of tricuspidal regurgitation (Vmax)	
	Chest X-ray Pulmonary function (transcutaneous O <sub>2</sub> saturation) and 6 minutes walking test	
	Abdomen ultrasonography	
	Brain: Angio-MRI	
	Ophthalmology: retinal exam	

	<p><b>Other procedures/advises based on individual clinical course</b></p> <p>Gynaecology(fertile women) Bone densitometry Otorhinolaryngology (ENT) Stomatology Dermatology</p>	
	<p><b>Vaccination</b> Influenza vaccine: annually</p> <p><b>Check immunization status</b> Haemophilus influenzae type B Meningococcal Pneumococcal (every 5 years)</p>	

Hb=Haemoglobin

CRP =C Reactive Protein

AST = Aspartate aminotransferase,

ALT =Alanine Aminotransferase

LDH= Lactate dehydrogenase

PTH=Parathyroid hormone

NTX= N terminal Telopeptide

CBC= complete blood count

BUN= Blood urea nitrogen

MRI= Magnetic resonance imaging
